Description of Goods / Services

SL	DESCRIPTION	QTY	UNIT PRICE	TOTAL PRICE
1	ArctiCore Forge - GPU Node	1	Rs. 100.00	Rs. 100.00
2	ArctiCore Nexus - Application Server	1	Rs. 50.00	Rs. 50.00

AMOUNT CHARGEABLE (IN WORDS)

Indian One hundred seventy-seven and zero hundredths Only

TERMS & CONDITIONS

Payment Terms: Net 30 days • Delivery: 4-5 weeks

TOTALS

Subtotal

Rs. 150

CGST

Rs. 13.50

SGST

Rs. 13.50

TOTAL

Rs. 177.00

DECLARATION

We declare that this proposal shows the actual price of the goods/services described and that all particulars are true and correct. Refer the Annexure for details.

COMPANY BANK DETAILS FOR PAYMENT

A/c Name: Aicera Systems Pvt Ltd

Bank: Karnataka Bank Ltd

A/c No: 0914702500101801

IFSC: KARB0000914

Branch: Herohalli Branch

SWIFT: KARBINBBNG

Annexure - 1

Bill of Material

MODULE	DESCRIPTION	QTY
Untitled		
ArctiCore™ Forge		
CPU	AMD EPYC 9354 Processor, 32 Cores / 64 Threads per CPU, Base Clock 3.25GHz, Max Boost up to 4.1GHz, 256MB L3 Cache, SP5 Socket, PCIe Gen5 support with high lane density, optimized for	2
Motherboard	Dual Socket SP5 server motherboard supporting AMD EPYC 9004 series processors, built on enterprise-grade architecture with PCIe Gen5 lanes for high-speed connectivity, up to 24 DIMM slots	1
RAM	32GB DDR5-4800 ECC Registered DIMM, dual-rank server memory module designed for AMD EPYC 9004 platforms, providing high bandwidth, low latency, and data integrity with ECC protection,	16
GPU	NVIDIA H200 Tensor Core GPU, 141GB HBM3e Memory, PCIe Gen5, Designed for AI/ML, LLM Training & HPC Workloads, High Bandwidth Memory for Large Model Processing	2
NIC Cards	Dual-port 100GbE Ethernet adapter with QSFP56 interfaces, PCIe Gen4 x16 interface, supports RDMA over Converged Ethernet (RoCE v2), GPUDirect (for cluster compatibility), advanced offloads	2
Number of Drives	Total of 3 enterprise NVMe U.2 SSD drives configured for high-speed local storage (dataset staging / scratch space) with direct PCIe attachment	3
Usable Storage	23.04TB: 3 × 7.68TB NVMe providing high-speed local scratch/dataset storage	1
OS Drive	960GB SATA SSD - Dedicated OS boot drive, enterprise SATA SSD for reliability and isolation from NVMe workload	1
Chassis Type	8-GPU Ready High-Density GPU Server Platform with PCIe Gen5 support	1
Form Factor	4U Rack Server - High-density GPU chassis supporting 4–8 GPUs with optimized airflow	1
Power Supplies	3000W Titanium PSU: Redundant PSU (4 units) to support GPU-heavy workloads (~6–8KW load)	4
Rail Kit	Heavy-duty rail kit for 4U GPU chassis	1
Cooling	High airflow fan modules with GPU-directed cooling	1
SFP Modules	Multi-mode 100G QSFP28 SR4 optical transceivers for high-speed connectivity	4
Labels	Rack and asset labeling for management	1
Warranty Duration	60 Months	1
SLA	ArctiCare Next Business Day Warranty	1
Support Type	Onsite Hardware Replacement + Remote technical assistance	1
Support Contact Label	Dedicated support contact	1
Installation Scope	Racking and Stacking	1
ArctiCore™ Nexus		
CPU	AMD EPYC 9354 Processor, 32 Cores / 64 Threads per CPU, Base Clock 3.25GHz, Max Boost up to 4.1GHz, 256MB L3 Cache, SP5 Socket, PCIe Gen5 support with high lane density, optimized for	1
Motherboard	Dual Socket SP5 server motherboard supporting AMD EPYC 9004 series processors, built on enterprise-grade architecture with PCIe Gen5 lanes for high-speed connectivity, up to 24 DIMM slots	16
GPU	GPU not included – this server is designed for application control, orchestration, and virtualization workloads; compute acceleration is handled by dedicated GPU compute nodes in the cluster	1
RAID Controller	Broadcom MegaRAID 9560-8i: PCIe Gen4 x8 RAID Controller supporting SAS/SATA/NVMe drives, Tri-Mode SerDes, 8 internal lanes, hardware RAID 0/1/5/6/10/50/60 support, advanced data	2
Capacity per Drive	7.68TB U.2 NVMe SSD, PCIe Gen4 x4 interface, enterprise-class mixed-use drive (1 DWPD) with high endurance and consistent latency, delivering up to ~6.8 GB/s sequential read and high random	3
Number of Drives	3 × U.2 NVMe SSD	1
RAID Level	RAID 5 configuration across 3 NVMe drives providing a balance of performance and fault tolerance with single drive failure protection	1
Cache Drives	Dedicated cache drives not required as NVMe drives provide high IOPS and low latency, eliminating the need for additional caching layers	1
OS Drive	960GB enterprise SATA SSD used as dedicated boot drive for OS/hypervisor, ensuring isolation from data storage and improved reliability	1
Form Factor	2U rack-mount form factor optimized for enterprise deployments, providing a balance of compute density, expansion capability, and efficient cooling for virtualization and application workloads	2
Power Supplies	1600W hot-swappable redundant power supply units with 80 Plus Platinum efficiency, ensuring high availability, load balancing, and uninterrupted operation in enterprise environments	1

Annexure - 1

Bill of Material

MODULE	DESCRIPTION	QTY
Rail Kit	Tool-less sliding rail kit for 2U rack server, enabling secure mounting, easy installation, and smooth access for maintenance within standard data center racks	1
Cooling	High-performance hot-swappable fan modules with optimized airflow design for effective heat dissipation across CPU, memory, and PCIe components in a 2U chassis	4
KVM	100GbE QSFP28 SR4 optical transceiver, multi-mode fiber (MMF) support up to 100m over OM4, designed for high-speed data center connectivity with low latency and high reliability	1
Cables	Power Cables	1
Labels	Rack and asset labeling for management	1
Warranty Duration	60 Months	1
SLA	ArctiCare Next Business Day Warranty	1
Support Type	Onsite Hardware Replacement + Remote technical assistance	1
Shipping Cost	Dedicated support contact	1
Installation Scope	Racking and Stacking	1
